## LOADING SOFTWARE FOR ACTIVE SPEAKERS

CONNECT YOUR BAX-1 TO THE NETWORK.

OPTION 1. Open BAX-1 from ... mybryston.com

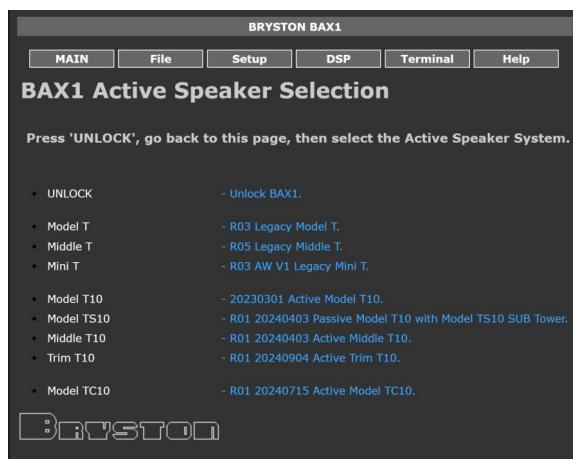

OPTION 2. Type in SN of BAX-1... EX- <http://bax1-000030/index.htm>

This interface will load showing current software IP address, SN etc.

Click on **MAIN**

In the BROWSER IP address bar replace the current IP address ...  
EX: <http://192.168.0.231/index.htm>  
with ... <http://192.168.0.231/speakers.htm>

This interface will load showing all the current software available for specific Bryston **ACTIVE** speakers.

Click on **UNLOCK**

Click on **BACK** in the browser bar.

Click on the appropriate speaker model

The BAX-1 will restart automatically (approximately 30 seconds) and will load the new speaker software you selected.

**CAUTION** - on some very early BAX-1 units there is a preliminary step before utilizing this software loading procedure. Check with Bryston.
