

# Manic Moose Sources

---

## S2.32 image (x86)

<http://vps96186.vps.ovh.ca/files/manicmoose/manicmoose.img.zip>

md5sum 17000d536afe7bda247d42c04dea6ac4

## S2.32 image (RPi)

[http://vps96186.vps.ovh.ca/files/manicmoose\\_a/BDP-Pi%20S232.zip](http://vps96186.vps.ovh.ca/files/manicmoose_a/BDP-Pi%20S232.zip)

md5sum 6d965aebf3f1f52c8e2aafd865d380be

These images require a storage device of atleast 8GB and can be imaged using [Etcher.io](http://etcher.io)

## MPD Sources

We use several different versions of the MPD between the two firmware revisions. As of May 15 2018 we do not modify MPD and leave them as stock. This archive includes the configuration as to documentation which plugins/features are supported.
