

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston Demo CES Vegas 2016

January 2016

Vegas CES - 2016

Here are some additional photos from the Bryston room to supplement Jim's video.

Had a chance to take an extended listen to the Bryston Mini T speakers (first photo) while chatting with James Tanner.

He discussed how, when they designed the Mini T, Bryston wanted to achieve a wide dispersion design so that the speakers would sound very good when listening off-axis as well as on-axis.

To my ears, the speakers sounded clean and effortless and gave an honest and dynamic musical delivery.

Mission accomplished James!
