

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

April 05 2012

SUBJECT: BDP-1 and Android Operating System

Hi Folks

Just an update: there are a number of wireless interface applications available that work with the Bryston BDP-1 Digital Player using the **Android Operating System**.

BRYSTON BDP-1

The applications we have currently tested are:

- **DROID MPD CLIENT HD**
- **MPDROID**
- **BitMPC**
- **PMIX**
- **DROID MPD**

These FREE applications are available on the Android Marketplace.

These APPS were tested on the Samsung Galaxy Tablet (7 inch version) and the Acer Iconia Tablet Model 200. Specifically the 'MPDROID' and 'MPDROID HD' worked extremely well.
