The KL International AV Show 2018 Experience – by Venoth Nair

All Bryston System (Electronics and Speakers)

Moving on to the veteran of KLI AV, AV Designs pulled a “tour de force” once again.

With a stellar combination from Bryston via its SP 4 Processor along with the full complement of Bryston speakers paired up seamlessly to twin 12 inch SYZYGY subwoofers for the ultimate in movie magic.

Proprietor James Tan was on hand with a selection of handpicked movies to exhibit the various strengths possessed by his system from management of dark scene with sudden shifts in contrast to highly detailed sound during a particularly busy scene.

No matter the challenge, the movie was delivered with absolute excellence!

The new Bryston SP4 Surround Processor takes center stage in AV Designs home cinema setup.
